

# Turn every project into a success story

Plan every detail. Keep track of progress.  
Bring your team together.

---

“Zoho Projects has allowed us to replace white boards,  
spreadsheets and project files with one single enterprise  
solution that our entire team can depend on.”

## Make Precise Plans

Break down complex projects into easier milestones, tasks, and sub-tasks. Visualise the plans with Gantt charts.

## Manage Resources

Know who is available, who is occupied, and who is overloaded and assign work accordingly.

## Conquer Dependencies

A dedicated view lets you track task dependencies. You can also view and edit them on Gantt charts.

## Report Elaborately

A number of reports and dashboards let you track project metrics. The Zoho Reports add on gives you advanced analytics.

## Track Time with Timesheets

Know how much time is spent on each task and bill clients accordingly.

## Collaborate with a social flavor

Liven up your work with social media style Feeds, Forums, and Chats.
